## About the Seminar

Change is inevitable. However, it is the rate of change that often becomes disruptive. This is why, all of a sudden, we are confronted with the present situation. Our current ways of economic and industrial development seem to be unsustainable. Population growth, urbanization, technology choices, and their environmental impact are unquestionably among the key forces that are shaping today's world. Although these factors are interrelated, it is useful to view them separately with regard to their historical data and future trends.

## Objective & Theme of the Seminar

Seminar course aims at providing know-how of latest methods and construction engineering practices being adopted in India and across the world. The seminar will enrich the participants with advanced materials, reuses the materials, techniques and approaches used for high quality and safe structures.

## Who should attend?

Students of civil engineering, Research scholars, Faculty members, Industry Persons & professional can attend the program.

## Registration Details

Student 500/-  
Academicians / Industry Delegates 700/-  
(Registration fees include Registration kit & Lunch)

## Reporting Time

Registration: Sharp 8:30 AM.

## About Institute:

Dr. Virendra Swarup Group of institutions was the brain child of noted educationist and founder secretary of Dr. Virendra Swarup Memorial Trust, Late Shri Ragendra Swarup who visualized apex center for quality higher education, training and research in Kanpur City. Dr. Virendra Swarup Group of institutions is aimed to cater to those students who due to lack of good higher education infrastructure have to leave Kanpur city and nearby areas to other centers National Capital Region (Delhi), Bihar, South India, Jammu & Kashmir etc. for pursuit of quality technical education. Dr. Virendra Swarup Group of institutions also aims to attract and mould bright, talented students from all across the country who can contribute immensely to the growth of this nation. The institution offers B.Tech, Diploma, I.T.I, Management & under graduate courses in management & technology in the 1<sup>st</sup> phase and will strive to become a private university in the years to come.

## Our Vision

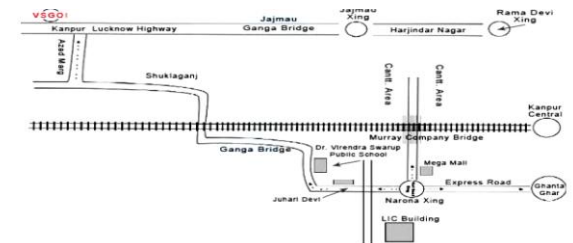

To be a truly world class institution of academic excellence with total commitment and dedication to quality education, research, consultancy services, training, ethics and human values with a holistic concern for human life, society and environment.

## Our Mission

To nurture, develop and produce globally competitive, ethical and competent technocrats and business leaders with a strong desire to excel as professionals and improve quality of human life, society and environment.

## About the Department

Owing to tremendous growth in the infrastructure sector in India and abroad, the demand of civil engineers has been on the rise. To fulfill the growing demand and to cater to the engineering needs of the nation, the institute offers B.Tech degree and diploma course in civil engineering which is affiliated to Dr. A.P.J. Abdul Kalam University and Board of Technical Education, Lucknow. The under graduate program provides rigorous analytical study along with realistic practical solution. The latest surveying techniques with remote sensing are the important features of curriculum. Field studies provide all elements for producing a good civil engineer. The gain in knowledge of student from practical experience from the field studies to building industries, real estates, bridges, high ways, flyovers, dams, and irrigation structure are top priorities of academic program. The department of civil engineering came into existence from the session 2010-2011 and five batches have passed out so far. The department has an excellent industrial interaction and contributes to the industry by offering consultancy services.
